

# When Precision Matters Most

Traditional Handle

Ergonomic Handle

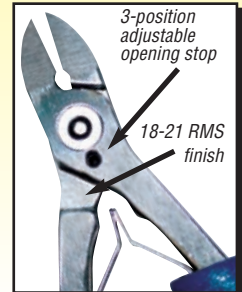

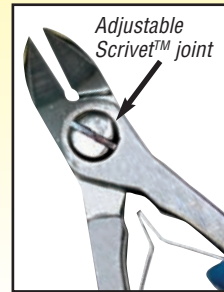

## M-Series Medical-Grade Cutters

Engineered to satisfy the exacting demands of medical professionals, these superior quality tools are forged from high chromium, high carbon alloy steel and hardened using a unique proprietary heat treating process for maximum strength and durability.

**They are ideal for all hard wire cutting applications including:** guide wires, stents, catheters, stylists, mandrels, braided mesh, single/multiple fliers, and lateral/internal cuts.

The adjustable Scriveret™ screw joint system, 18-21 RMS finish and 3-position adjustable opening stop reduces operator fatigue and helps ensure precise, consistent cuts through a variety of challenging materials, e.g., piano wire, tungsten, gold, platinum, Vectran®, most stainless including MP35N-V, PTFE-coated materials—even Nitinol.

**These long lasting ESD safe cutters are available in your choice of head shapes, cutting edges and double dipped standard or ergonomic handles.**

### Carbide Tapered Head Diagonal Cutters with Traditional Handles

Model	Description	OAL	Jaw Length	Body Width	Tip Thickness
M401C	Small Carbide Tapered Diagonal Full Flush Cutter	4.70"	0.50"	0.44"	0.05"
